Curled Waste

Dimpling

White Shear

Using ordinary composite deck fasteners in capstock decking results in several surface defects.

Capstock Decking

Hard Outer Shell

CAP-TOR: THE FIRST FASTENER FOR CAPSTOCK DECKING

- Cap-Tor is the only screw on the market designed specifically for capstock / co-extruded decking.
- Cap-Tor screws feature a specially engineered head that cleanly penetrates the hard outer layer of capstock products.
- Cap-Tor is also a high performance solution in typical composite decking.
- Cap-Tor is available in *HEADCOTE* stainless steel and *DECKFAST* epoxy coated steel, in ten different head colors and coatings to match all of the major capstock and composite decking products in the market today.
